10	\$ 87.84

### METER RATES

Meter rates help pay for the costs associated with operating and maintaining EVWD's water treatment and delivery system. These charges are determined by meter size, not by the amount of water delivered.

### FIRE SERVICE CHARGES

Fire protection charges reflect a monthly service charge, based on connection size, for private fire services. These charges cover the costs associated with maintaining facilities and do not typically apply to most residential customers.

### COMMODITY RATES

Commodity rates cover costs that vary based upon the amount of water delivered. These rates reflect a three tiered rate structure based on monthly HCF.
